DD/S 66-2409

MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Review of Foreign Service Officer Candidates

1. This memorandum suggests action on the part of the DDCI; this action is contained in paragraph 3.

2. The Chief, Operational Services Division, DDP, has requested that we seek agreement of the Department of State to permit us to screen their Foreign Service Officer Register for possible candidates for our Career Training Program. Direct access to the Register would be asking a good deal of the Department since it represents the end product of the Department's whole recruitment and selection process for the Foreign Service and appointments are made from the Register at various times as the need arises. However, if our representatives could review a selected group from the thousands of candidates for the Foreign Service, it could be a very constructive development for the Agency's recruitment program.

3. There is attached for your signature a letter to the Deputy Under Secretary of State for Administration requesting exploratory discussions with the Department on this matter.

Honorable William J. Crockett
Deputy Under Secretary for Administration
Department of State
Washington, D. C. 20505

Dear Bill:

May I ask whether it would be agreeable to you to explore at this time how the Department might be able to render certain assistance to this Agency in its professional recruitment program.

As you may know, we have a special program to attract, recruit and develop junior officers who will become the professional intelligence officers of the future. They are recruited throughout the United States by direct contact with universities and colleges; and we are now seeking additional means of attracting qualified candidates in order to meet our foreseeable requirements. Our limited resources do not begin to match the long-established system for the recruitment of Foreign Service Officers with the wide respect it enjoys throughout the country.

We appreciate that the FIO Register represents a substantial investment in the selection and examination process and the protection of its integrity to meet the needs of the Department must be your first consideration. But beyond this, there must be many hundreds of candidates who take the examination but fail to make the Register. What we are suggesting, therefore, is access for our review to as broadly selective a group of candidates as the Department would deem feasible.

It is interesting to recall that during the early 1950's the Agency benefitted substantially from the screening and recruitment, at the Department's suggestion, of the many FIO candidates qualified on the Register but in excess of requirements.

If further discussions of this proposal are agreeable,
I suggest that you let me arrange for Mr. Emmett D. Echols,
our Director of Personnel, to get in touch with whatever
representative you may suggest.

Sincerely,

Richard Helms
Deputy Director
